# Abstract knowledge remains abstract

- Not abstract, but everyday knowledge shapes our worldview and actions

Types of knowledge	
abstract	Embedded in everyday life
Obtained	Experience-based
explicit	implicit
communicative	Shaping behaviour
reflexive	Self-evident

# Young people learn agency through activism

„When you are dissatisfied with the situation and want to change something, then you go and change something and you don't pass on your responsibility, I think this is something one has to learn.

What I have learned in my time in this group is that one can do something and that it is absolutely necessary and that this also leads to feeling better myself.“

„First you see only problems, but you don't know yet about solutions. But when come together with people, you develop really good ideas how to improve things. And then you make it to realize those solutions in your every day life. And then you become more satisfied this yourself, not only seeing problems, but knowing what to do. You don't feel so helpless any more.“

(PhD project Jenny Lay-Kumar on climate change concepts – please to not quote before publication)

# Experience-based knowledge

- Hands-on work: learning skills
- Alternative everyday action: imagine, try + get used to new patterns of sharing, doing yourself and acting

# Engagement is a Chance

- Experience-based knowledge shapes change
- Changes worldview by experiences
- Self-sufficiency => happiness

## REPAIR MANIFESTO

WE HOLD THESE TRUTHS TO BE SELF-EVIDENT

---

**IF YOU CAN'T FIX IT, YOU DON'T OWN IT.**

**REPAIR IS BETTER THAN RECYCLING**  
Making our things last longer is both more efficient and more cost-effective than mining them for raw materials.

**REPAIR SAVES YOU MONEY**  
Fixing things is often free, and usually cheaper than replacing them. Doing the repair yourself saves you money.

**REPAIR TEACHES ENGINEERING**  
The best way to find out how something works is to take it apart.

**REPAIR SAVES THE PLANET**  
Earth has limited resources. Eventually we will run out. The best way to be efficient is to reuse what we already have.

---

**REPAIR CONNECTS**  
PEOPLE AND THINGS

**REPAIR IS WAR ON ENTROPY**

**REPAIR IS SUSTAINABLE**

---

**WE HAVE THE RIGHT:**

- TO DEVICES THAT CAN BE OPENED
- TO REPAIR DOCUMENTATION FOR
- TO REPAIR THINGS

**TO CHOOSE**

- TO REMOVE "DO NOT REMOVE" STICKERS
- TO REPLACE ANY & ALL CONSUMABLES OURSELVES

**TO NON-PROPRIETARY FASTENERS**

- TO TROUBLESHOOTING INSTRUCTIONS & FLOWCHARTS
- TO AVAILABLE, REASONABLY-PRICED SERVICE PARTS

---

**REPAIR IS INDEPENDENCE**  
SAVES MONEY & RESOURCES

**REQUIRES CREATIVITY**

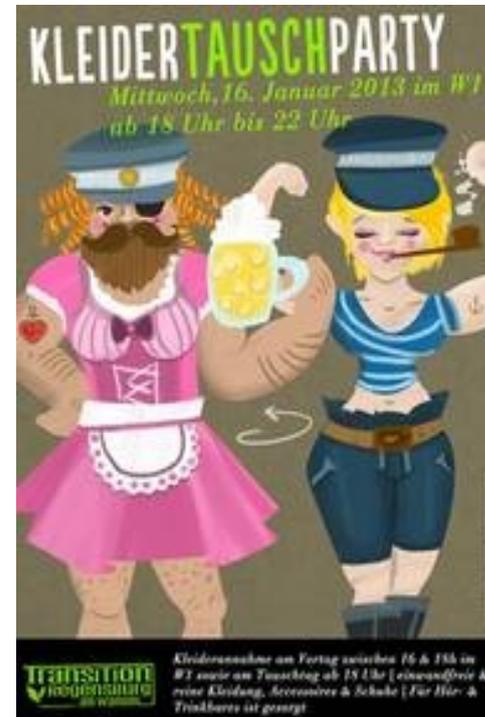

**MAKES CONSUMERS INTO CONTRIBUTORS**

**INSPIRES PRIDE IN OWNERSHIP**
